## Deadly Dulles Design

According to your Washington reporter, John O'Donnell, the Dulles clan which includes John Foster in the State Department, Allen in the Central Intelligence Agency, and even a sister, Eleanor, in the State Department, is to finally face an investigation by the next Congress.

One point to be investigated, is why Allen Dulles used C.I.A. funds for Communist agent Miklos Szabo's return to Hungary with information that may have since caused anti-Communist Hungarians to be imprisoned, shot or sent to slave labor camps.

Mr. O'Donnell is to be commended for his article, but a year ago O'Donnell was writing glorifying articles to insure Eisenhower's re-election, and to relegate Adlai Stevenson to a law office when he was most certainly needed in the White House.

Calling for this investigation, which has often been prevented by White House and State Department pressure, is several years too late. The writer of this letter at least a year ago called for Dulles' resignation and an investigation for his detrimental policies. But the one man really responsible for Dulles being in his important position to do damage to this country is only one man—Dwight D. Eisenhower.

The deadly design of Dulles & Co. is unfolding. We have not heard much concerning Communists in government since the so-called Eisenhower Crusade took over in Washington. But the ghost of Alger Hiss still stalks the marble halls of the State Department. What better place than the State Department to sell this country out? All information is so classified, top secret, under the Eisenhower censorship that people are duped into believing that everything is spotlessly white.

But if the surface is finally allowed to be scratched, much Red material may be found underneath the facade. No secretary of state has served the cause of Communism better than John Foster Dulles, but he has been called the greatest secretary of state in history by President Eisenhower.

Dulles' statement that Communism is "merely a passing phase" is only a small example of his thinking. When we see it strangling freedom in one country after another. We witnessed the suicide of Hungary, who knows it is no passing fantasy. No policy he has ever made has helped this country and its position in world leadership. Dulles has done nothing but a great service for Russia.
